

Quality Lawn Care Products

# About Turf Line

TURF LINE

## We Know Our Turf

Owners of High Point Mills, Jim Guck, Ron Vergilia and Bill Guck

For more than 60 years, the TURF LINE trademark has been a trusted symbol for quality lawn care products. The reason for this exceptional level of quality are the men who stand behind the TURF LINE name. Owners Jim Guck, Ron Vergilia and Bill Guck are committed to produce the best fertilizer products money can buy. They are hands-on owners. Any day of the week, you will find them hard at work managing the day to day activities of the plant, making sure all products are produced according to their high standards. And if you happen to find them on a golf course, it's most likely to analyze turf and soil conditions to better recommend the type of formulations that will provide the best results for that golf course.

When it comes to quality, it is the individual who determines how well a product is made. You can be assured TURF LINE is one of the best lawn care product lines on the market because Jim, Ron and Bill stand behind every TURF LINE product they make.

## High Point Mills, Manufacturer of TURF LINE Products

Turf Line Products are manufactured by High Point Mills, a privately owned company located in Henrietta, New York. Founded in 1956 the company initially served Upstate New York customers. Today, Turf Line products are sold throughout New York State and Pennsylvania and are specially formulated for soil conditions in those areas. Most Turf Line fertilizers are NPK fortified, providing essential nutrients for exceptional results. Turf Line's Premium, All Season Lawn Care Program is one of the best on the market, surpassing the performance of other lawn care programs. High Point Mills manufactures a variety of lawn, garden and commercial fertilizers and grub killers. For over 60 years, the Turf Line trademark has been the mark of excellence and is your assurance of high quality fertilizers and lawn care products.

The next time you buy fertilizer, we urge you to take the time and compare other lawn care products to TURF LINE. You will find TURF LINE by far, to be the best fertilizer for your lawn and the best value for your money.
