Winterizer Fall Fertilizer

WHEN TO USE:
September Through Mid-November

If your lawn is weed free, it still needs nutrients to carry it through the winter. TURF LINE's Winterizer prepares your lawn for the coming cold weather. The NPK plant foods and high-phosphorus formula are specially designed for fall use. It encourages root development and thickens turf without excessive leaf growth. This enables the lawn to better withstand the rigors of winter. It is specially formulated for soil conditions in our area.

Available in 5,000 and 10,000 Square Foot Bags

Fortified With Essential Nutrients

12-16-10

High-Phosphorous, Fall Formula
